

## About The Product

Introducing EasyLife Handy UV box, a box-shaped sanitization chamber that uses short-wavelength UV-C (ultra-violet C) rays to kill 99.99%\* viruses including coronavirus, bacteria & fungi from the surface of all inanimate objects exposed to it, like watches, wallets, shoes, mobile phone, keys, cash, mask, vegetables, etc. in just 4 minutes. It is lightweight, portable and offers a convenient way of sanitization, keeping you and your family safe.
